Searchers Find Body of Port Arthur Man Drowned In Canal Collision; Other Still Missing

IDENTIFIED AS FRANK FERRIS

Grappling Hooks Locate Remains This Morning

CONTINUE HUNT

Hope to Locate Corpse of Willie Cropper

The body of Frank Ferris, about 35, of 221 Eleventh street, drowned with Willie Cropper, 332 East Nineteenth street, early Friday morning at the mouth of the Neches river, was recovered by searching parties about 11 a. m. today.

Grappling hooks brought Ferris' body up right at the place where the motor launch in which he and Willie Cropper were riding is believed to have been smashed by a tug boat, according to reports reaching Port Arthur. At a late hour efforts to locate Cropper's body were still unavailing.

Bringing Body Here
Immediately upon the receipt of the word from the mouth of the Neches river that the body of Ferris had been found, arrangements were made by friends here to send for the body and bring it to the Grammarly undertaking establishment.

Recovery of the body of Ferris came at the end of six days of constant searching and patroling carried out by friends and relatives of the drowned man. Putting out to the scene today were Paul Foy, a half-brother of Cropper, and his brother, W. M. Cropper, of Franklin, Louisiana, and others.

Ferris was married and is survived by his widow and five children. He was engaged in trapping and was going out last Friday morning with Cropper to see about their traps along the canal and river several miles above Port Arthur. The two men started on the canal in a small launch before daylight, and were drowned when a tug boat smashed the launch during the heavy fog, friends of the men said.

Efforts were continued with renewed energy today to locate the body of Cropper with the hope of finding it at the same spot as Ferris.

PASTORS ADOPT CONTEST RULES

Meeting This Afternoon Completes Details

Rules governing the Sunday school attendance campaign to be held among the various churches of the city and to be sponsored by the Port Arthur News, were submitted to the pastors affiliated with the Port Arthur Ministerial Alliance and Sunday School superintendents this morning at a meeting called by Rev. Culp, president of the Alliance.

The rules were drawn up by a committee from the Ministerial Alliance, composed of Rev. Culp of the First Baptist church; Rev. R. R. Yelchman of the First Christian church; and Rev. F. W. Hampton of the Nazarine church. With a few exceptions and amendments the entire set of rules and regulations were adopted by the pastors and superintendents.

The rules and regulations will be revised with the amendments at a meeting of the committee this afternoon. They will probably be published in tomorrow's issue of the Port Arthur News.

The contest has been suggested by the Port Arthur News for greater Sunday school in Port Arthur. A loving cup will be awarded by the Port Arthur News to the Sunday school showing the greatest percentage of increase in enrollment and average attendance during the three months of the contest.

Musicians to Form Luncheon Club

Within the immediate future, Port Arthur will welcome the advent of another luncheon club.
It will be known as the Musicians' club, according to word delivered to the Citizens today from at New Lake View hotel by A. M. Culpepper, and its membership will be exclusive to professional musicians.
According to Mr. Culpepper, Owen Lantz will head the new organization.

'Non-Intoxicating' Wines Taken at Denver

DENVER, Colo., Feb. 20.—A refrigerated car, said to contain bonded liquors worth \$200,000 was seized in the Denver railroad yards today.

The engagement of "non-intoxicating wine" was being shipped from California to Cleveland, Ohio.

Seeds on the car had not been broken, but officials had pried into the car through an iron hole and said they could see the 1,000 cases of bottles, with many of the "non-intoxicating" labels showing.

Mer Rouge Case Prosecutor Beaten By Saint

NEW ORLEANS, Feb. 20.—Henry T. Fuqua today piled up a heavy lead over Hewitt Bonhamand in the race for nomination for governor in the count of ballots from Tuesday's primary. Returns from the entire city of New Orleans and 165 out of 1,082 county precincts gave a vote of:

Fuqua, 51,332; Bonhamand, 62,418. Attorney General A. V. Cox, who presented the famous Mer Rouge investigations of the murders of W. H. Daniel and T. P. Richards, has apparently been defeated for re-election by Percy Saint.

Bonhamand accused Fuqua of being friendly to the Ku Klux Klan. Tuesday's election was a runoff primary.

Previously the Fuqua ticket was victorious. While the campaign of Justin P. Deshaud, candidate for state auditor, who is in a tight race with T. D. Harris.

CHRISTIAN QUILTS RACE FOR POST

Action Follows Testimony of Board Chief

WASHINGTON, Feb. 20.—George B. Christian's nomination to be a member of the Federal Trade Commission, was withdrawn from the senate today by President Coolidge, C. Bacon Sloop, the president's secretary announced.

Christian's request for withdrawal followed testimony by Thurston Thompson, chairman of the commission. The Christian tried to influence him with respect to a complaint against the Famous Players-Lasky Moving picture company.

Christian was secretary to the late President Harding.

CITY BORROWS PAYROLL MONEY

Loan of \$1,490 Necessary to Pay Expenses

FINANCE STATEMENT

Deficit of \$27,500 to March 31 Shown

The city's payroll for the first half of February, amounting to \$11,524.05, was out today.

The First National bank agreed to make the loan.

Itemized, the amounts in the payroll distribution as of record in the city hall are:

General fund, \$8,230.55.
Water and sewer, \$2,411.95.
Water work, bond No. 5, \$188.10.
Street improvement No. 5, \$273.45.
Total \$11,524.05.

Deficit is shown.
A statement of the city's financial condition, said to show a deficit of approximately \$27,500 to March 31, was made by the First National bank 23 Mayor Logan.

Mayor Logan yesterday stated he had no statement to make at the present time, but probably would make one within a few days.

February 5, in order to meet the January payroll, the city borrowed \$7,000.

The sum of \$2,285 has been paid back by the city on the \$7,000 loan. (Turn to Page 9, Column 2)

Elkins Admits He Bought Oil Stock Of Sinclair Issues

WASHINGTON, Feb. 20.—Senator Dave Elkins, West Virginia, today told the United Press that he had dealt in Sinclair oil stocks through Denker and Company, the New York brokers, whose books were examined yesterday by the senate Teapot Dome committee.

Elkins' name was found on the books. It has been stated.

Elkins said he bought and sold several hundred shares of Sinclair oil stock.

"Certainly I bought and sold Sinclair oil stocks," said Elkins. "I dealt in several hundred shares through Denker and Company and I don't care who knows it. I may and sell any kind of stock I want. There is no law against it and my office does not prevent my dealing in stocks."

Denies He Kissed
"I did not have any kiss from anyone on Sinclair oil and I did not go into any pool. If I had gone into a pool, I probably would have lost more money than I did."

"I have not the time nor the money to deal extensively in stocks, but I deal far more extensively in Sinclair oil stock than I did in Sinclair oil."

"If that is a crime, let them go after their heads off. The public seems to have gone crazy and there is a lot of hot air in the senate about this oil thing but it will not disturb me because my transactions are absolutely legitimate."

Calls It Hysteria
"If this hysteria continues the only thing to do is to close the stock exchange and halt all business. The whole thing is a joke. How can we have a liquid business unless we buy and sell things?"

Asked if he had dealt through any other firm but Denker and Company on Sinclair stock, Elkins said he had, but declined to name the firm or firms.

"That's for the committee to find out," he said, referring to the senate Teapot Dome committee.

It was said Elkins purchased probably between \$500 and 10,000 shares of the Sinclair stock. His speculation during the year 1922 when the price was granted, showed a profit of about \$10,000.

He was elected for full term in 1918 while he was in France serving with the seven-thousandth division. He served in the Spanish-American war, leaving Harvard to enlist as a private. Later becoming a lieutenant and a captain.

His home is in Morgantown, West Virginia, where upon the death of his father he assumed charge of the Elkins coal and other interests, which are extensive.

Elkins is 38 years old.

TEXAS COMPANY FOREMAN DIES

William Henry Brown Will Be Buried Tomorrow

Funeral services for William Henry Brown, 32 years, who died Tuesday afternoon about 6:50 o'clock in Mary Gates hospital, will be conducted Tuesday afternoon at 2 o'clock from the residence, 1027 Proctor street, with Rev. V. A. Godfrey, pastor of First M. E. church, South, officiating. Burial will be made in Greenwood cemetery, under the direction of J. L. Grammer, undertaker.

Bill bearers for the funeral will be: active, J. H. McCutney, H. J. Alexander, George Aycock, James Wier, Earl Lloyd and James H. Taylor; and honorary pall bearers, V. B. Peveto, Sydney C. Collins, John Pickett, Thomas Thompson, C. S. Plummer, C. E. Abner, S. L. Dunn, Manager T. Ball and A. B. Miles.

Brown came to Port Arthur about 15 years ago, going into the employment of the Texas Company here, and at the time of his death was general foreman at the Texas Company terminals. He was a native of Lester, England, where he was raised and educated. At the age of 17 years, Brown came to the United States, staying a short time in New York City, and then coming to San Antonio, Texas, where he remained a short time before finally coming to Port Arthur to make his home.

Surviving are his widow and small girl, Winifred, and relatives in Philadelphia and Houston. Brown had been in ill health since January, when he underwent an operation. Hopes were entertained that he would completely recover, but he suffered a relapse several days ago, and failed to rally.

Chinese Bandits Menace Foreigners

PEKIN, Feb. 20.—Large forces of Chinese bandits under the Nankai have been reported attacking and murdering foreign officials and threatening the foreign population. M. Perroux, French merchant in Amoy, says in a telegram to the United Press.

The first attack was beaten off by citizens, unaided by the Chinese garrison, the telegram says.

Illinois Physician And Nurse Missing

DANVILLE, Ill., Feb. 20.—Inquiries were broadcast today for Major George D. Walter, 45, veteran of the World war, doctor, sculptor and electrical engineer, who disappeared last Saturday. Search also is being made for Irene Epperson, pretty student nurse.

Dr. Walter had charge of the X-ray laboratory at Saint Elizabeth's hospital here. Miss Epperson, also was attached to the institution. Dr. Walter's bride of six months refused to believe rumors of an elopement and leans to the theory of foul play.

HOUSE BACKS GARNER'S PLAN

Fight Administration Efforts to Pass Mellon Bill

SMALL INCOMES FREED

25 Per Cent Rebate on 1923 Tax Probable

WASHINGTON, Feb. 20.—Having killed the Mellon plan and written the Garner income tax rates into the revenue bill the democratic-progressive coalition in the house today stood its ground against efforts of the administration forces to reverse the action.

Longworth Still Hopeful
Republican Leader Longworth today said he had not abandoned the fight, as the parliamentary situation is such that there is still a possibility of enforcing the adoption of a compromise which would not destroy the Mellon program.

As a result of the vote of 222 to 196 in the house yesterday, the income tax schedule now stands:

1. Normal taxes on incomes up to \$5,000 are two per cent; 4 per cent between \$5,000 and \$8,000; six per cent above \$8,000.

2. Surplus beginning at one per cent on \$12,000 are graduated to 44 per cent on \$92,000 incomes.

3. Personal exemptions for single persons are \$2,000 and for heads of families \$2,500.

While the original plan proposed by Representative Garner, Texas, was to make the entire program retroactive so as to give taxpayers reductions on the taxes to be paid this year on their 1923 income, it is understood that he has abandoned the idea. As a result the Green plan to give a 25 per cent rebate on 1923 incomes seemed assured of adoption.

May Reduce 1923 Tax
This would mean that tax payers would make out their income tax returns on March 15 this year on exactly the same basis as last year, with the same rates applying but would be entitled to reduce the tax 25 per cent when they paid it.

With the adoption of the Garner plan in the committee of the whole house, the fight will be until the bill gets into the house proper. Democrats intend to support most of the administrative features of the bill.

Will Seek to Unseat Senator Mayfield
NEW YORK, Feb. 20.—Dr. Nicholas Murray Butler, president of Columbia university, has accepted the leadership of a movement to counter a fight against the Ku Klux Klan by unseating Earl B. Mayfield as junior United States senator from Texas, he told the United Press today.

30 Join in Fight
Convinced that if the Klan is to be stamped out Mayfield must be unseated, 30 men of affairs in New York have been asked to grant moral and financial support to Texas now working in Washington to elect their junior senator.

Colonel Henry D. Lindeler, former mayor of Dallas, is prominent in the movement and attended a conference at the Lotus club last night in which Dr. Butler outlined his program.

Lindley K. Treasurer
Lindley will act as treasurer of the movement. Money will be raised to finance completion of the investigation in connection with the Mayfield contest and bring about its comprehensive presentation before the senate privileges and elections committee in Washington.

Mr. Power said the college is overhauling its premises with students, and that large numbers are completing their courses before employment can be found for them.

"This condition can be alleviated," he went on, "if you fellows will just address a letter to some of your friends telling them to get in touch with Leonard Power when they want a stenographer, typist or bookkeeper."

Stump Grilled
One of the highest spots in the taking of testimony yesterday was the grilling administered Roy Stump of Port Arthur, former secretary-treasurer of the Port Arthur Chamber of Commerce and Shipping.

Frequent hits between Stump and the K. C. S. beat array featured the two hours and 15 minutes that the Port Arthur man was on the witness stand.

Various endeavors and artifices were resorted to to tangle Stump up in the testimony he had presented to the commission, but to no avail.

Characteristic of the repartee which passed between the witness and attorneys for the K. C. S. was a discussion of the value of the Kansas City Southern facilities to export.

Geo. M. Craig Recounts K.C.S. Railroad History

VICTORY FOR DUFF

Evidence Received in Spite of Protests

BY TOM J. WILHELM
Port Arthur News Staff

AUSTIN, Texas, Feb. 20.—George M. Craig, banker of Port Arthur, took Kansas City Southern attorneys into his confidence here today and let them in on inside dope regarding activities of the road in the early days.

Taking the stand in behalf of Col. R. C. Duff's application to build a new railroad into his town, Craig delivered broadside after broadside into the ranks of the legal talent of the Kansas City Southern and led them into the maze of intricacies surrounding the early development of interests of his road at the port city all the while he was endeavoring to show the Kansas road in the role of martyr going down in glorious defeat with flags fluttering because the port could not supply business enough to keep the Kansas City Southern going.

Have Strange Hold
The Kansas City Southern interests had a stronghold of everything available at Port Arthur including townsite, canal and dock and Port Arthur land company was described by Craig on the stand as having a "strange hold" on the town.

It was a clear cut victory for Duff inasmuch as objection to the line of testimony was raised by Kansas City Southern attorneys, showing decided aversion to having it introduced.

Attorney Moore, for Kansas City Southern asked Craig if he could not withdraw his statement concerning Arthur Stilwell with the Kansas road because said Stilwell was never connected with the road.

"I don't know his connection," said Craig, "but he used to make out my checks and I inferred from that, that perhaps he might have some slight connection with the road."

Asked if the Canal and Dock company, successor to the Channel and Dock company, was a subsidiary to the K. C. S., Craig thought it was, for Stilwell was president of almost everything in Port Arthur at that time.

Craig introduced testimony to show bond buyers in Kansas City Southern were given as bonuses stock in Port Arthur townsite company as "junk packages." Efforts of Kansas attorneys to point out the cause of a philanthropic organization were scoffed at by Craig. "They sold lots at a profit, unloaded the canal on the government at a profit inasmuch as they were relieved of cost of maintaining it," said Craig.

"What would you have the K. C. S. do?" asked Moore.

"I would have them open to any road that wanted to come into Port Arthur," recommended Craig.

"Did not the K. C. S. endeavor to land heavy returns for the Port Arthur?" Craig was asked, and he replied: "Absolutely not. Mr. Edison did as an individual but he was only general manager at the time, and was authorized to the contrary by his officials."

New appearances were introduced today in the array of other allegations. West Texas Chamber of Commerce introduced a resolution favoring the Duff project. H. H. Booth, traffic manager of International-Great Northern road, also appeared to testify for Duff.

Port Arthur went into history of tonnage of Texas Company following Willard Imhoff on the stand. Imhoff told about building material traffic into Port Arthur.

Harry Connelley, shipper forwarding agent, was on the stand when noon recess was taken. He told about the terrible condition of docks.

The Port Arthur delegation was represented by the Austin American at dinner Tuesday. Visiting Rotarians were fed by the local Rotary club Tuesday night.

Excerpts from the hearing before the Texas railroad commission revealed themselves into contests between attorneys Fullbright and Hobbs for the Duff interests and a combination of G. H. Murkey and Judge J. H. Moore for the Kansas City Southern.

Power Boosts LOCAL COLLEGE

Asks Civitans to Tell World About It

"Let's let the business world beyond Port Arthur know we have a real business college here, and that we are turning out class A students," Leonard Power, Civitan president, urged the organization's members today when he was presenting to the club letters which he requested the sign and mail "out-of-town business concerns needing stenographers and bookkeepers."

Mr. Power said the college is overhauling its premises with students, and that large numbers are completing their courses before employment can be found for them.

"This condition can be alleviated," he went on, "if you fellows will just address a letter to some of your friends telling them to get in touch with Leonard Power when they want a stenographer, typist or bookkeeper."

Nederland's Chamber of Commerce Has Big Program for Current Year

80 BOOSTERS IN ORGANIZATION

Consider Incorporation As Municipality

By ROGER WM. ARCHER

Port Arthur, News Staff

Nederland's Chamber of Commerce, which has been actively functioning for the last two years, organized during a booster session of interested citizens and business men to advocate the better things for the community and to "advocate Nederland's possibilities to Texas" two years ago, the chamber was patterned after Port Arthur's own commerce body, and has since been taking an active hand in the affairs concerning both Nederland and the county.

Have Membership of 80

With a membership of 80 enthusiastic boosters in Nederland, the organization launched the current year with C. E. Gibson, an employee of the Texas Refining plant at Port Neches, as president and M. R. Huffman as secretary. Huffman is also employed by the Texas Company at Port Neches.

The 1924 directorate includes some of the best known figures in the community, among the list being the following:

T. C. Estell, first vice president; E. W. Jackson, second vice president; Lee J. N. Vincent, third vice president; J. Dornbos, G. C. Reach, J. M. Morgan, William T. McNeil, J. B. Cook, J. H. H. Goulkin and M. W. Oakley.

Like Port Arthur's Chamber of Commerce officials, the president and vice presidents of Nederland's chamber are selected by the directorate from their own number.

12 Committees Named

Twelve regular standing committees were named at the inception of the current year, including membership, finance, merchants, agricultural, traffic, industrial, advertising and publicity, law and legislation, general, civil affairs, auditing and sports and attractions, all of which are reported as being busy.

Although the organization is not operating upon a budget basis, and is depending for its financial support largely from the membership dues and subsequent contributions, the chamber has established a constructive program for 1924 and are looking forward among the chief things to the following:

The location of a newspaper plant in Nederland.

Increasing the membership from 80 to 150 at once.

Seeking fire protection.

Diverting suitable and adequate drainage outlets, probably back to the Neches river or through the Jayton at Nederland.

Consideration of "incorporation and the subsequent establishment of a municipal form of government."

It is the belief of several Nederland business men that the newspaper plant idea will materialize within the next 30 or 60 days, and that Nederland will have her own publication.

THREE-YEAR TRUCE OF MINERS EXPECTED

JACKSONVILLE, Fla., Feb. 20.

A three year truce in the nation's bituminous coal fields today depended only on a ratification vote of the mine.

Operators' and miners' representatives in their final conference late yesterday, signed a three year renewal of the present working agreement in the central competitive field on which wages and working conditions in other sections are founded.

DUFF HEARING

(Continued from Page 1)

Shippers of Port Arthur.

"I don't know, Mr. Stump," asked Muckley, "that the ship agents in the expert trade at Port Arthur make their living off the tonnage cleared over the Kansas City Southern docks?"

"Haven't seen any of them that thin yet," retorted Stump.

"Has Port Arthur any coarser lines?" asked Muckley.

"Yes, but it's a pretty doing a fade-out," explained Stump.

"Tell us about the cotton shipped over the K. C. S. docks."

"Cotton, oh yes," the shippers have shipped from 70,000 bales to nothing."

No effect was made by Chairman Gilchrist of the Railroad Commission to sustain either side in the matter of presenting testimony and as a consequence each attorney notified himself of the latitude allowed.

How They Stand

county says that territory embraced by the Port Arthur Independent School District.

The history of the various ports of this district and the fight made to get government aid for deeper waterways was told by Anderson.

Cost of Maintenance

Anderson estimated the cost and maintenance of the government waterways of the Sabine district at upwards of \$100,000. He stated that the navigation district strongly favored the construction of the proposed railroad.

On cross examination the K. C. S. officials testified that the Port Arthur ship channel grants after a million dollars had been spent on it by the Port Arthur Ship Channel company, a subsidiary of the K. C. S.

In the same answer Anderson informed the commission that the K. C. S. had also been relieved of the tremendous cost of maintaining such a waterway.

Asked what territory would be exploited by the new line, Anderson told the commission the virgin timber lands would be benefited.

Fullbright then took the witness and brought out testimony to show that the jobs would also have a larger territory to work, should the proposed rail line be authorized.

Woodland Takes Stand

Don S. Woodland, Stump, then took the stand and endeavored to show where the timber industry would be benefited by the construction of the new rail line. As chairman of the wharf and dock commission Woodland told of the facilities already at Beaumont or in the course of construction.

STRIKE TESTS NEW PREMIER

Labor Leader Forced to Move Cautiously

LONDON, Feb. 20.—The government opened its court of inquiry into the strike of dockworkers today and there appeared to be some hope the action would hasten a settlement. Executives of the dockmen's union, however, were not optimistic, and said the strike had been intensified.

Score of Ships Lay Idle
Scores of ships lay idle at harbors, unable to discharge their cargoes. Food prices were mounting despite the government manifesto against gouging.

Pickets this morning prevented removal of chilled beef from cold storage plants, hastening a threatened critical meat shortage in London.

Face Difficult Task
As the government opened its campaign, it was indicated the labor cabinet will move warily, realizing that any strong move against the dockmen will provoke a general outburst of wrath from the rank and file of the labor party, making precarious its first experiment in government.

Prime Minister MacDonald faced a critical situation.

With discipline in his own party threatened, the premier had at once to keep the confidence of union labor and at the same time guarantee the rationing of the population.

On behalf of the government it was stated that the prime minister is keeping close personal watch on mounting food prices, which he does not believe have yet reached a point sufficiently high to warrant emergency measures.

PARADE OF KLAN STIRS OKLA. CITY

25,000 Expected Friday for
Procession

OKLAHOMA CITY, Feb. 20.—The mask of the Ku Klux Klan held the center of the state in Oklahoma today with plans completed for a statewide convention of Klansmen here Friday evening with monster night parade in full Klan regalia.

More than 25,000 state Klansmen will be in the city for the parade, along with representatives of several "hate" states, according to N. C. Jewett, grand dragon of Oklahoma.

Arrangements have been made here to handle a score of special trains from Kansas, Nebraska, Missouri, Texas and points throughout the "hate" south.

Further "hate" protest against the proposed parade was held in above city today pending the final decision of Governor Travis, hinging upon the wearing of the mask by the marchers. Doffing of the mask would remove the greatest opposition to the parade. It was believed, placing it upon the status of other organizations. Questioned as to this possibility, Grand Dragon Jewett declared after a conference with the governor that the Klan would parade "in full regalia" and "in-late" there would be no unmasking.

Urges Repeal of Law
Under an anti-unmasking bill passed by the special session of the legislature and which becomes effective June 1, masked parades upon streets and highways of the state are forbidden. Protest is from several members of the legislature relative to the Klan parade, claiming that the bill is an attempt to restrict the public's right of free assembly.

Governor has thrown the ball back to the legislature, and does not contemplate any action which might violate any law. The bill is an attempt to restrict the public's right of free assembly.

LETTER FROM SYDNEY CAR-
TON TO PAULA FRANK

Received your wire this morning, but I am afraid I can do nothing for you. Of course I can understand that you want your baby very much, but you must also remember you voluntarily gave him away and you made no answer when the court asked for any relatives to appear and say why he should not be adopted by Jack and Leslie.

You probably know Jack better than I, but I know him in a different way and I know he has grown to love the boy very much. Besides, he knows it would break Leslie's heart to give him up now.

Once, my dear girl, you fought against Leslie for Jack and lost, and I am afraid you will lose again, even though both times Leslie has been totally unconscious that anyone was battling against her. With the bankruptcy of respectability and right thrown up in front of her, she could not lose.

You have grown to be a big woman, Paula. Big enough to forget this. You managed very well when you had to give up Jack's love. Your mother loved stronger than your love was for him or do you still want to hurt him as he has hurt you?

It's a great problem, my dear, and I do not feel at all able to advise you, an old bachelor like me. But I am very fond of you and of Jack, and I respect and regard Leslie more than any other woman on this earth. There! I'm telling you something I have never told anyone else, but I feel it true that John Alden Prescott got much more than he deserved when he was given the love of Leslie Hamilton and she became his wife.

I'm rather sorry you are going to Albany. Although, like every other woman who think they are being able to keep their affairs from the world, you must know that your affair with Jack before his marriage to Leslie was common talk among the men about town, as well as among the young society matrons whose husbands had confided in them the more or less true details.

All these old stories will be revived. All the old scandal will get a fresh start. If Jack and Leslie go together to see your picture when you make your personal appearance, everybody will say Jack is trying to bluff it out. If either of them go alone, the people will say Jack was afraid to take Leslie to see the picture. If neither of them go near or, someone is sure to hazard the opinion that Jack and Leslie have quarreled over you and neither dare go. You can under no circumstance stop the gossip you have started.

I shall be much interested to know the outcome of it all. Above all else I hope and pray nothing will be said or done to hurt Jack's wife, Leslie. She has not only been sweet and kind to your child, Paula, but she

Grapefruit Salad (Individual)
One-half grapefruit, 1-2 head lettuce, 1 dessertspoon oil (optional), 1-2 teaspoon salt, paprika.
Remove grapefruit pulp from shell and skin. Arrange in a nest of lettuce. Sprinkle with salt and paprika and pour over oil if used. If the diet is very strict the salad should be made without oil as the dessertspoon of oil adds about 100 calories of fat to the menu. It is not included in the calculation of calories.

**Young Blanchard Is
Removed to Home**

Though still suffering from the effects of a head injury suffered Saturday night when struck by an automobile at Beaumont and Procter, Wade Blanchard, 12, son of Mr. and Mrs. D. Blanchard, 1118 Eighth street, was sufficiently recovered to be removed from the hospital to his home on 23.

The boy partially regained consciousness last night, and attending physicians expressed the belief that

he is practically out of danger. An X-ray made Sunday showed that young Blanchard's skull had not been fractured.

FOODSTUFFS IN PRICE ADVANCE

Heavy Liquidation Eases Grain Market

The wholesale commodity markets were not particularly active this week and price changes were more equally divided, 25 advances in the list of quotations compiled by Dan's Review comparing with 32 declines. In last week's statement, 63 increases contrasted with 22 reductions; in a similar comparison for the corresponding week of last year, 48 out of 73 alterations were in an upward direction.

Heavy liquidation was mainly responsible for an easier tone in the grain markets, and lower prices were established on all products.

In live meats, beef and sheep displayed considerable firmness, and despite liberal marketings, prices of hogs were well sustained. Provisions were steady, in sympathy with the situation in the raw material. Some increase in the supply of the most desirable grades resulted in a moderate decline in butter, while liberal offerings had a very depressing effect on eggs and cheese.

With new business being placed in substantial volume, the price situation in iron and steel displays increasing stability and the iron market shows a rising tendency. Firmness rules in all departments of the miscellaneous metals group. Although there seems to be some irregularity in cotton goods, costs of production maintain prices at a high level. A further increase in strength was the feature of the hide markets, and a noticeable improvement in the tone of leather has resulted from the growing interest that appears to be developing among shoe manufacturers and other large consumers.

The following table gives the minimum quoted wholesale prices corrected to date, and the same week a year ago, of leading commodities at New York City, unless otherwise specified:

Commodity	This Year	Same Week Last Year
Apples, com. 100 lbs.	2.50	2.50
Bacon, 100 lbs.	11.50	10.50

BANK CLEARINGS

The large increase noted in bank clearings last week was not maintained this week, an aggregate of \$6,348,674.000 at leading cities of the United States being 3.4 per cent in excess of the amount for this week of 1923 and 17.3 per cent more than the total two years ago. Last week, gains of 14.0 per cent and 37.1 per cent respectively, were reported to Dan's Review. With clearings of \$2,434,671,000, the outside centers this week show increases of 3.1 per cent and 23.6 per cent over the figures for the same period of the two immediately preceding years, while the New York City total of \$2,011,000,000 is 2.3 per cent larger than that of this week of 1923 and 12 per cent more than the amount two years ago. Comparing with last year's clearings, decreases appear only at Philadelphia, Baltimore, Louisville, Kansas City and Omaha, ranging from 1.5 per cent at Philadelphia to 10.4 per cent at Omaha. Elsewhere, there were a number of substantial gains, the largest being 34.1 per cent in each case at New Orleans and Los Angeles.

EVANGELIST SPEAKS AT CHURCH OF CHRIST

Record of Week's Failures
Little change occurred in the number of failures in the United States this week, a total of 428 being reported to R. G. Dun & Co. This compares with 429 defaults last week, but is considerably in excess of the 361 insolvencies of a year ago. Comparing with last week's returns, slight increases appear in the east and west, but there was a small decrease in the south and the number on the Pacific coast was the same as that of last week.

With a total of 77, Canadian failures this week show an increase of 12 over the 65 defaults of last week, but the number is 8 less than the 85 insolvencies of this week of 1923.

IT'S A HEADSET

WE have what the French designer calls a "coiffure a la radio." You will notice that the decorative flange ornaments falling over the sides imitate the ear pieces of the radio outfit. While there is no objection to wearing it while you listen to your favorite band or a lecture, it is intended for the ballroom or the opera.

It comes in silver or gold, to suit your taste.

BUSINESS HOLDS RECENT GAINS

Floating of Japanese Loan Adds Optimism

Recent gains in business have been held, and in some cases extended. The movement still lacks uniformity, but there has been a distinct advance in certain of the major lines, and the general price situation is firmer. Most of the important statistical measures reflect the larger operations, notably bank clearings, building permits and unfilled steel tonnage, and the record of car loadings for the season discloses continued heavy distribution of merchandise. Without any change from the conservative policy that has ruled for many months, various buyers have come into the markets for additional supplies, the more frequent ordering indicating that some stocks are down to the point where replenishment is necessary. The great iron and steel trade has developed a degree of activity exceeding expectations, with prospects strengthened by the floating of the Japanese loan in this country, whose proceeds will be used for purchases of material here, and the favorable position of the lumber industry is maintained. Comparing now with the business of a year ago, which was expanding rapidly, increases are seen in some quarters, but in others there is a smaller volume. Despite recent improvement, uncertainties continue in some textile branches, with further restriction of output at cotton goods mills, and the revival in leather and footwear has not yet reached the stage where the conditions are wholly satisfactory. Thus the commercial situation, though showing betterment, is still marked by irregularities, and it is significant that there is little disposition, even in lines where the best results appear to extend commitments very far into the future.

Exports Exceed Last Year's

Returns of this nation's foreign trade for the first month of the new year show merchandise exports smaller by about \$25,000,000 than those of last December and imports larger by \$11,000,000. Yet January's exports of \$204,000,000 compare with \$225,000,000 in that month of 1923, a 17.4 per cent increase, and contrast with imports last month of \$229,000,000. Thus the excess of exports over imports, or the so-called favorable balance of trade, was \$85,000,000. This is much below December's surplus of \$140,000,000, but is far above that of January of last year, when exports exceed imports by only \$5,000,000. Yet in 1921 the January excess of exports was fully \$145,000,000 and in 1920 it was \$218,000,000.

Smaller Exports of Cotton

The decline in January's merchandise exports from those of December is largely explained by the smaller output of cotton. As against shipments of practically \$45,000,000 of that staple in December, the exports last month fell to about \$40,000,000, or fully a 15 per cent decrease. This information was made public by the census bureau on Thursday, following the earlier is-

Rickard Denies Affiliation With Ticket Scalpers Last Year

Refutes Statement Made By O'Rourke

BY HENRY L. FARRELL
United Press Staff Correspondent

NEW YORK, Feb. 20.—Tex Rickard, New York's leading boxing promoter, denied emphatically today the charges made in Albany yesterday by Tom O'Rourke, former deputy boxing commissioner, that he had turned over \$135,000 worth of tickets for the Dempsey-Firpo fight last fall to scalpers.

Rickard said that the only tickets left after the fight had been staged were those of \$20 and \$15 denominations, which, he said, were always the hardest to sell.

O'Rourke, who was connected with the Polo Grounds Club at the time, charged before a legislative committee that Rickard turned back \$135,000 worth of seats that could have been sold at the box office.

Rickard said this morning that the boxing commission had gone over and had approved his accounting for the tickets, and that he had nothing to fear. He said he had been hit by a "bullet" several days ago when he was told that O'Rourke was ready to "pull a rug" on him. It was a surprise when he took a shot at Rickard as it was understood that he had his gun aimed at a former member of the commission.

While it was agreed that the charge against Rickard might be a severe blow to the sport and could be used as ammunition for those who are crusading against the sport in Albany, it was suggested here today that it bordered too much on what has been accepted so far as a personal fight against Rickard.

While the charges against Rickard came out of a clear sky New York fans were not surprised when it was learned that O'Rourke had thrown the charges at Rickard.

O'Rourke and Rickard have been bitter enemies for several years.

YOUR INCOME TAX

Changes wrought by births, deaths and marriages during the last year affect materially income tax returns for the year 1923. Millions of babies were added to family circles. For each parent, in addition to the personal exemption allowed married couples, are entitled to a \$100 credit for a dependent.

Boys and girls who became self-supporting, and whose parents allow them the use of their earnings without restriction, form a new class of taxpayers. Each must file an income tax return and pay a tax on his or her net income. If such income was in excess of \$1,000. The earnings of dependent minor children who have not been "emancipated"—allowed the use of their earnings by their parents—must be included in the parents' return of income.

Widows and widowers who lost their spouses during the year 1923 are especially affected. Unless remarried on or before December 31, 1923, or the head of a family, they are allowed only the \$1,000 exemption granted a single person.

Widows and widowers are not required to show on their individual returns the income of husband or wife up to the time of death. The income of a decedent is considered separately and a return must be filed by the executor or administrator of the estate. The executor or administrator who makes a return for a decedent is entitled to a credit for income tax.

Boils

THERE is a reason for everything that happens. Common-sense kills boils. Common-sense also stops boils! S. S. S. is the common-sense remedy for boils, because it is built on reason. Scientific authorities admit its power! S. S. S. builds blood-power, it builds red-blood-cells. That is what makes fighting-blood. Fighting-blood destroys impurities. It fights boils. It fights pimples! It fights skin eruptions! It always wins! Mr. V. D. Schaff, 557 15th street, Washington, D. C., writes:

"I tried for years to get relief from a bad case of boils. Everything failed until I took S. S. S. I am now absolutely cured, and it was S. S. S. that did it."

S. S. S. is sold at all good drug stores in two sizes. The larger size is more economical.

Whereas, the city of Port Arthur is indebted to various employees for services rendered to the aggregate amount of \$1,400 for the first half of February, A. D. 1924, said exchange being proper and regular, and necessary in conducting the affairs of the said city for the said month and year.

Whereas, said expense is not in excess of, but is within the amount revenue of the city available for such purposes for the current year, and

In an individual return the taxpayer states as of December 31, 1923, determines the amount of his exemptions and credits. If on that day the taxpayer was married and living with his or her spouse, the exemption is \$2,000 if the couple's net income for 1923 was \$5,000 or less and \$2,000 if the net income exceeded \$5,000. If single the exemption is \$1,000.

If, on December 31, 1923, a single person is or was married or is or was a head of a family, he is entitled to the same exemptions granted a married person. If his support of such relative ceased during the year, he is entitled only to the \$1,000 exemption. If a dependent dies during the year, the \$1,000 credit for such a person is not allowed.

Taxpayers are reminded that the period for filing returns ends, at midnight, on March 15. Failure to file within the time prescribed renders the return null and void.

NEW YORK IN
BLIZZARD'S GRIP

Hastily Recruited Army Clearing Away Snow

NEW YORK, Feb. 20.—An army of 2,000 men, recruited today from the ranks of the city's first red blizzard of the year, Street and snow driven by a gale which swept this section throughout the night, left a trail of thoroughfares blocked with the drifted snow, suburban highways almost impassable and train schedules delayed.

Emergency calls sent to the municipal police house and cheap hawker hotels yielded hundreds of men to aid regular street department workers, who were finding it impossible to make any headway against the storm. Today college men from Columbia University and other schools here joined the army of snow fighters.

At an early hour street cars were moving intermittently, while automobiles were having trouble getting through the snow piled streets. Motorized snow plows were making attempts to keep open.

As to foreign mission work: Six new foreign fields entered; 34,334 baptisms; 354 churches organized; 1,000 stations established; 31,222 Sunday school pupils enrolled; 2-4 million schools established; 275 new Agents in missionaries sent out; and 2,023 native workers employed.

As to home mission work, 173,602 baptisms by agents of the Home Board; 277,908 received into churches; 11,772 persons led to dedicate themselves to special service; 18,222 church houses built or improved; 335 churches organized and 298 new schools.

Two new orphanages were established, making now a total of 19 homes in the south on which \$3,750,000 were expended for equipment and maintenance during the campaign.

Nine new hospitals were built, making a total number of 21, with a projected addition of more than \$5,000,000 in these 47,000 patients were treated last year; 12,000 of whom were children.

List and annuity for old members of the campaign, 1914-1923, totaling \$1,190,191. There are now 925 beneficiaries.

Two new schools were established, making a total of 17. Of this number 12 are senior colleges; 37 junior colleges; 30 academies and five Bible and two college schools.

Southern Baptists now number 2,500,000 with a minimum income of \$1,250,000,000 yearly. Reports in the south, both white and black, now number 1,157,000.

Since the campaign was launched

Some \$50,000,000 has been paid leaving as our task for the present year \$25,000,000.

Farina Must Pay Penalty For Double Murders

NEW YORK, Feb. 20.—John Farina, the third man to be convicted for the killing of two bank messengers in Brooklyn last November, was found guilty of first degree murder today by a jury that deliberated more than four hours and a half.

As a result of the verdict Farina faces the death penalty with Morris and Joseph Diamond, who were convicted for speedy trials last week. The men were indicted for the slaying of the bank messengers, William H. McLaughlin and William S. B. Lion and theft of more than \$33,000 which the two men were carrying in a bag.

Both of the late men indicted were arrested three days after the slaying. The fourth, Anthony Pantano, was a trial, while the fifth, George De Santis, still at large.

CHILD'S STORY OF THE HUMAN RACE

CHAPTER 116
The Revenge of Achilles
The sorrow of Achilles over the
death of his friend soon turned into
rage against the slayer. He put on
the shining armor brought from
Mount Olympus and went forth to
battle.
At his approach, the Trojans be-
gan to flee. Again it was only
Hector who dared to make a stand.
Before leading the Trojans to
battle, Hector had said a touching
farewell to his wife and infant son.
His wife feared it might befall him
that day. In our picture we see her
weeping on his shoulder as he was
about to go forth. When his sol-
diers fled behind the walls of Troy,
Hector stayed outside. His father,
King Priam, saw him and begged
him to come to safety. His mother
added her pleas; but Hector was
dead to their words.
On came the raging Achilles, and
a cruel light shot from his eyes as
he saw his enemy, the slayer of his
friend. Hector's heart then misgave
him and he turned to flee; but a
vision came to him of a brother by
his side. He turned again toward
the Greek hero and turned his spear
with all his might. It struck in the
shield of Achilles, then rebounded
back! Hector turned to ask his
brother for another spear, but—alas
for poor Hector! No brother was
there.
Hector drew his sword, but what
could a sword do against such a
shield and such armor? Achilles let
loose his spear. The Trojan fell in
the throes of death.
Drunk with blood-lust and re-
venge, Achilles tied the body of his
fallen foe to his chariot and drove
round and round the walls of Troy.
Hector's wife (tainted as she watched,
Paris, who was a brother of Hector,
at a later time slew Achilles by
shooting him with a poisoned arrow.

Nurse Saves 2 People From Operation

"I had two patients that the doctors seemed unable to reach with their medicines and in both cases advised the knife. A friend who had tried May's Wonderful Remedy for Stomach trouble proposed that I recommend it to my patients, which I did. Both are now entirely well. I am very glad that I was able to recommend it. It removes the catarrhal mucus from the intestinal tract, and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded at all druggists.—Adv.

Green Trees: "Age of Desire" and "Leather Pushers."

"SECRETS OF PARIS"

"Secrets of Paris," a brilliant modernized version of Eugene Sue's famous "Mysteries of Paris," will be seen at the Liberty theatre tomorrow. The story tells of a king with a willow, a two-fisted up-to-date young monarch, who has his whole domain against the love of a charming little Parisienne maid. It is an absorbing tale of mystery, love and adventure, and deals with the king who wanders incognito into Paris, and there starts his adventures. The cast includes Lew Cody, Gladys Hulette, Mountain Love, and many others.

"RUGGLES OF RED GAP"

All aboard for Red Gap! That California was just now in made over means nothing in the life of James Cruze, who produced "The Covered Wagon" and "Hollywood," and a host of other Paramount picture successes. And if you want your own maps of the Golden State strictly up to date, you must pencil a circle four hundred miles north of San Francisco, for there lies the brand new town of Red Gap. If you can't find Red Gap, ask Ruggles, he knows. Most of the Harry Leon Wilson story, "Ruggles of Red Gap," is laid in a town called Red Gap. There was no such place. To face the scenes on the Lucky hit last James Cruze's idea of Paramount pictures. And so a small army of carpenters were sent with a trainload of lumber to the lonely best suited for the scene.

New Safe Way To Remove Teeth Stains

New Discovery Bleaches Dark Teeth Instantly!

A new safe treatment has been discovered which dissolves tooth stains instantly, giving soft, dingy teeth a charming new whiteness and luster. This new treatment is called the Bleachodont Combination. It consists of a safe mild liquid and a new kind of paste. The liquid instantly dissolves or softens the stains, while the paste removes them and if used daily prevents the formation of future stains. You just brush your teeth with a few drops of the liquid, then use the paste, and before your very eyes your teeth acquire a clean, glowing whiteness that even ten times the scouring by old-fashioned methods could not give them.

It is vitally important that only a safe, mild preparation like Bleachodont Combination be used on children's teeth, which are especially subject to stains and decay. Bleachodont Combination is safe and harmless, for its mild ingredients are especially combined to not only act on surface stains. It does not affect the enamel in any way. Gritty and abrasive dentifrices should never be used. If you want sparkling, white, pearly teeth get Bleachodont Combination today. Costs only a few cents. At all good dealers, such as: Corner Drug Co., Hart Drug Co., McAllen and Glass Service Drug Co., City Drug Co.—Adv.

Sale of Motorboat

Otter Is Postponed

Sale of the motorboat *Otter*, confiscated by federal authorities some time ago, is postponed until next Wednesday at 10 o'clock a. m. on the steps of the post office. A. A. Gunter, assistant collector of customs for the Sabine district, said today. Postponement of the sale of the *Otter* was ordered in the interests of the government and possible claimants, the assistant collector said.

It had been planned to conduct the sale of the motorboat at 10 a. m. today on the steps of the federal building, Gunter said.

"The manufacture of motor launch has grown to such proportions in the United States that the industry now consumes about 50,000,000 bushels of corn each year.
